

Enabling you to connect.™

Ruckus® Wireless/Wi-Fi

Powernet has teamed up with Ruckus Wireless to offer Smart Wi-Fi technology. Acknowledged as a Top Dog Reseller by Ruckus, we provide clients with:

- Reliable, high-performing Wi-Fi
- Central management capabilities
- 3-4x the range of basic wireless
- Robust security
- Support for IP-based video and voice streaming

Unmatched Technology and Support

Ruckus technology delivers what basic wireless technology can't: longer range and more reliable Wi-Fi connections to client devices. Smart Wi-Fi constantly steers signals around obstructions and obstacles, mitigates interference and focuses RF energy only where it's needed.

This advanced antenna technology reduces the number of access points needed to provide coverage to a given area, helping to further reduce upfront costs.

About Powernet

Powernet enables businesses to connect through innovative telecommunications solutions. With networking, voice, data, call center and carrier services, we have the technology and expertise to meet the needs of any size business.

Ruckus is ideal for:

- **Schools** - support classroom, lab and administrative needs.
- **Warehouses** - connect any number of mobile devices in high-interference environments.
- **Outdoor venues** - connectivity over large areas with a high density of personal devices.
- **Offices** - high capacity, high bandwidth for offices of any size.
